

CERTIFICATE OF CLIMATE AND BIODIVERSITY PROTECTION

This certificate verifies that

Hyperion Asset Management

For the period 1996 to 2014 has compensated

544 tonnes of greenhouse gas emissions

and funded the planting of

816 trees*

by investing in South Pole's climate protection projects:

EcoAustralia™ + Landscape Restoration

Yingxin Glassworks Waste Heat to Energy, China

Biodiversity Tree Planting, Australia

Renat Heuberger

CEO, South Pole

Thank you for committing to bold climate action. Your contribution is not only a meaningful step towards mitigating climate change globally, but also changes lives for the better by contributing to the Sustainable Development Goals set out by the UN.

You have helped take urgent and significant action to reduce the degradation of natural habitats, halt the loss of biodiversity, and protect and prevent the extinction of threatened species.

Carbon Credits Serial

GS1-1-CN-GS750-15-2014-5919-39730-40273

No. Tree planting details.

Winter 2021 planting season at the sugarloaf Creek Restoration site

Certificate number

C1770EN, 10.2020

Date

01/10/2020

This certificate is issued by South Pole. For more information about our services and more than 700 climate protection projects, please visit: southpole.com/projects. The CO₂ emissions indicated on the certificate are compensated through investments in the above mentioned carbon offset projects based on international standards.

*Planting site and season is subject to change. An equivalent number of native trees will be planted on a site managed for biodiversity outcomes including pest and invasive species control, but survival of the plants is not guaranteed. Tree species to be selected by the planting site manager. Conservation covenant to be applied prior to the property changing ownership.
